ASTROPHYSICAL JOURNAL  
Volume 514, Number 1, 1999  
Special Issue: The Evolution of  
Galaxies  
M. C. Faisana  
The evolution of galaxies is a  
fundamental topic in astrophysics.  
This issue contains a series of  
papers that discuss the evolution  
of galaxies from the early universe  
to the present day. The papers  
cover a wide range of topics,  
including the formation of galaxies,  
the evolution of their morphology,  
and the role of dark matter in  
galaxy evolution. The issue is  
a valuable resource for anyone  
interested in the evolution of  
galaxies.
